GENERAL

1. We shaved some time off the run today. The actors stayed focused, despite the Veteran's Day parade on the street outside the theatre!

PROPS

1. We need more blank paint sticks for next week's run; the ones with paint on them do not snap as easily.

COSTUMES

1. Jim's glued his work boots together, so they should last the rest of the run.

LIGHTING

1. Jeremy and I found out that the lamp in channel 12 works, but the mirror is in the wrong position for light cue 37.5 (and possibly a few others, but that is the only one I noticed). Can this issue be resolved before Thursday?
